MOTIF

Trimbareshwar Temple

The village of Trimbaek, 36 kms from Nashik, is famous for the Trimbareshwar Temple and as the source of the Godavari River. Trimbareshwar enshrines one of the 12 *vyotirlingas* dedicated to Shiva and this one is considered to be the main *vyotilinga*.

Legend has it that Guatam Rishi performed a rigorous ritual of prayer and penance or *tapasya* to Shiva on Brahmaagiri Hill which rises above the present-day temple. Pleased with this devotion, Shiva is said to have blessed him and brought down to earth from heaven the sacred rivers of Ganga, Gautami and Godavari.

FOREWORD

The District Census Handbook (DCHB) is an important publication of the Census Organization since 1951. It contains both Census and non Census data of urban and rural areas for each District. The Census data provide information on demographic and socio-economic characteristics of population at the lowest administrative unit i.e. of each Village and Town and ward of the District. The Primary Census Abstract (PCA) part of this publication contains Census data including data on household amenities collected during 1st. phase of the Census i.e. House Listing and Housing Census. The non Census data presented in the DCHB is in the form of Village Directory and Town Directory contain information on various infrastructure facilities available in the village and town viz; education, medical, drinking water, communication and transport, post and telegraph, electricity, banking, and other miscellaneous facilities. Later on, the Telegraph Services were closed by the Government of India on 15th. July, 2013. The data of DCHB are of considerable importance in the context of planning and development at the grass-root level.

2. In the 1961 Census, DCHB provided a descriptive account of the District, administrative statistics, Census tables and Village and Town Directory including Primary Census Abstract. This pattern was changed in 1971 Census and the DCHB was published in three parts: Part-A related to Village and Town Directory, Part-B to Village and Town PCA and Part-C comprised analytical report, administrative statistics, District Census tables and certain analytical tables based on PCA and amenity data in respect of Villages. The 1981 Census DCHB was published in two parts: Part-A contained Village and Town Directory and Part-B the PCA of Village and Town including the SCs and STs PCA up to Tahsil/Town levels. New features along with restructuring of the formats of Village and Town Directory were added. In Village Directory, all amenities except electricity were brought together and if any amenity was not available in the referent Village, the distance in broad ranges from the nearest place having such an amenity, was given.

3. The pattern of 1981 Census was followed by and large for the DCHB of 1991 Census except the format of PCA. It was restructured. Nine-fold industrial classification of main workers was given against the four-fold industrial classification presented in the 1981 Census. In addition, sex wise population in 0-6 age group was included in the PCA for the first time with a view to enable the data users to compile more realistic literacy rate as all children below 7 years of age had been treated as illiterate at the time of 1991 Census. One of the important innovations in the 1991 Census was the Community Development Block (CD Block) level presentation of Village Directory and PCA data instead of the traditional Tahsil/Taluk/PS level presentation.

4. As regards DCHB of 2001 Census, the scope of Village Directory was improved by including some other amenities like banking, recreational and cultural facilities, newspapers & magazines and 'most important commodity' manufactured in a Village in addition to prescribed facilities of earlier Censuses. In Town Directory, the statement on Slums was modified and its coverage was enlarged by including details on all slums instead of 'notified slums'.

5. The scope and coverage of Village Directory of 2011 DCHB has been widened by including a number of new amenities in addition to those of 2001. These newly

added amenities are: Pre-Primary School, Engineering College, Medical College, Management Institute, Polytechnic, Non-formal Training Centre, Special School for Disabled, Community Health Centre, Veterinary Hospital, Mobile Health Clinic, Medical Practitioner with MBBS Degree, Medical Practitioner with no degree, Traditional Practitioner and faith Healer, Medicine Shop, Community Toilet, Rural Sanitary Mart or Sanitary Hardware Outlet in the Village, Community Bio- gas, Sub Post Office, Village Pin Code, Public Call Office, Mobile Phone Coverage, Internet Cafes/ Common Service Centre, Private Courier Facility, Auto/Modified Autos, Taxis and Vans, Tractors, Cycle-pulled Rickshaws, Carts driven by Animals, Village connected to National Highway, State Highway, Major District Road, and Other District Road, Availability of Water Bounded Macadam Roads in Village, ATM, Self-Help Group, Public Distribution System(PDS) Shop, Mandis/Regular Market, Weekly Haat, Agricultural Marketing Society, Nutritional Centers (ICDS), Anganwadi Centre, ASHA (Accredited Social Health Activist), Sports Field, Public Library, Public Reading Room, Assembly Polling station, Birth & Death Registration Office. In the Town Directory, seven Statements containing the details and the data of each Town have been presented viz.; (i)-Status and Growth History of Towns, (ii)- Physical Aspects and Location of Towns, (iii)-Civic and other Amenities, (iv)-Medical Facilities, (v)-Educational, Recreational & Cultural Facilities, (vi)- Industry & Banking, and (vii)- Civic & other amenities in Slums respectively. CD Block wise data of Village Directory and Village PCA have been presented in DCHB of 2011 Census as presented in earlier Census.

6. The data of DCHB 2011 Census have been presented in two parts, Part-A contains Village and Town Directory and Part-B contains Village and Town wise Primary Census Abstract. Both the Parts have been published in separate volumes in 2011 Census.

7. The Village and Town level amenities data have been collected, compiled and computerized under the supervision of Shri Ranjit Singh Deol, Director of Census Operations, Maharashtra. The task of Planning, Designing and Co-ordination of this publication was carried out by Dr. Pratibha Kumari, Assistant Registrar General (SS) under the guidance & supervision of Dr. R.C. Sethi, Ex-Addl. RGI and Shri Deepak Rastogi present Addl. RGI. Shri A.P. Singh, Deputy Registrar General, (Map) provided the technical guidance in the preparation of maps. Shri A.K. Arora, Joint Director of Data Processing Division under the overall supervision of Shri M.S. Thapa, Addl. Director (EDP) provided full cooperation in preparation of record structure for digitization and validity checking of Village and Town Directory data and the programme for the generation of Village Directory and Town Directory including various analytical inset tables as well as Primary Census Abstract (PCA). The work of preparation of DCHB, 2011 Census has been monitored in the Social Studies Division. I am thankful to all of them and others who have contributed to bring out this publication in time.

(C.Chandramouli)
Registrar General &
Census Commissioner, India

New Delhi.

Dated:-16-06-2014

Preface

The emphasis on decentralised planning is progressively gaining momentum in India in view of the enactment of Panchayat Raj Institutions at grass-root level. This Handbook provides necessary information required for planning and decision making at the micro level in the context of decentralized planning at district and block level.

In fact, Census has voluminous database systematically organised, updated and structured so that it is of some value and generates valuable information for development. For the best utilisation of such extensive data, the Census Organisation is publishing such primary census data, integrated with other non-census data from secondary sources with village level information and maps as a handbook for each district. The Registrar General and Census Commissioner in his foreword has already provided sufficient details of history and scope of the publication of District Census Handbook.

The design for the 2011 District Census Handbook was evolved centrally by the Census Commissioner, India. In accomplishing this task we have received whole-hearted co-operation of the staff at various levels of different departments of the Government of Maharashtra. Much of the data so provided by this field –level officers have been cross checked with the data obtained from various departments and an attempt has been made to reconcile the discrepancies as well through the software provided by the Registrar General and Census Commissioner, India.

I am deeply grateful to Dr.C.Chandramouli, Registrar General & Census Commissioner, India and Shri Deepak Rastogi, Additional Registrar General for their guidance in bringing out this publication. I also express my thanks to Shri A.P.Singh, Deputy Registrar General (Map), Shri A.K.Singh, Deputy Registrar General (Census Division), Dr.Pratibha Kumari, Assistant Registrar General (SS Division), Shri M.S.Thapa, Addl. Director (EDP) and their colleagues for providing technical guidance in finalising this volume.

In this Directorate the DCHB section was spearheaded by Shri Y.S.Patil, Deputy Director under the guidance of Shri S.S.Hiremath, Joint Director. He was ably assisted by Shri. D. B. Gode, Assistant Director, Shri W.A.D'Souza, Statistical Investigator Gr.I, and Smt. Winifred A. D'Souza, Statistical Investigator Gr. I.

The physical features have been concurred by the Map section, after incorporating necessary updates, wherever required. The maps inserted are prepared by the Cartography Section under the guidance of Shri D.N. Chaurasia, R.O(Map). I am thankful to the Census Section headed by Smt. B.H Thakare, Assistant Director, PCA/DDU unit headed by Shri Santosh Payas, Assistant Director and DDE section headed by Shri Vijay Ahire, Deputy Director.

Lastly, I take this opportunity to offer my thanks to all officials in various grades who have been actively involved in voluminous work of compilation and preparation of this volume. The list of the officials of this Directorate closely associated with this work is given in the "Acknowledgements".

HISTORY AND SCOPE OF THE DISTRICT CENSUS HANDBOOK

The need of data at the grass root level for the administrative and planning purposes at sub micro level as well as academic studies prompted the innovation of District Census Handbook. District Census Handbook is a unique publication from the Census organization which provides most authentic details of census and non-census information from village and town level to district level. The District Census Handbook was firstly introduced during the 1951 Census. It contains both census and non census data of urban as well as rural areas for each district. The census data contain several demographic and socio-economic characteristics of the lowest administrative unit i.e. of each village and town and ward of the district. The non census data comprise of data on availability of various civic amenities and infrastructural facilities etc. at the town and village level which constitute Village Directory and Town Directory part of the DCHB. The data of DCHB are of considerable importance in the context of planning and development at grass-root level.

In 1961 census DCHB provided a descriptive account of the district, administrative statistics, census tables and village and town directory including Primary Census Abstract. This pattern was changed in 1971 Census and the DCHB was published in three parts: Part-A related to village and town directory, Part-B to village and town PCA and Part-C comprised analytical report, administrative statistics, district census tables and certain analytical tables based on PCA and amenity data in respect of villages. The 1981 census DCHB was published in two parts: Part-A contained village and town directory and Part-B the PCA of village and town including the SCs and STs PCA up to tahsil/town levels. New features along with restructuring of the formats of village and town directory were added into it. In Village Directory, all amenities except electricity were brought together and if any amenity was not available in the referent village, the distance in broad ranges from the nearest place having such an amenity, was given.

The pattern of 1981 census was followed by and large for the DCHB of 1991 Census except the format of PCA. It was restructured. Nine-fold industrial classification of main workers was given against the four-fold industrial classification presented in the 1981 census. In addition, sex wise population in 0-6 age group was included in the PCA for the first time with a view to enable the data users to compile more realistic literacy rate as all children below 7 years of age had been treated as illiterate at the time of 1991 census. One of the important innovations in the 1991 census was the Community Development Block (CD Block) level presentation of village directory and PCA data instead of the traditional tahsil/taluk/PS level presentation.

As regards DCHB of 2001 Census, the scope of Village Directory was improved by including some other amenities like banking, recreational and cultural facilities, newspapers & magazines and 'most important commodity' manufactured in a village in addition to prescribed facilities of earlier censuses. In Town Directory, the statement on Slums was modified and its coverage was enlarged by including details on all slums instead of 'notified slums'.

The scope and coverage of Village Directory of 2011 DCHB has been widened by including a number of new amenities in addition to those of 2001. In the Town Directory, seven Statements containing the details and the data of each town have been presented viz.:(i)-Status and Growth History of towns,(ii)-Physical Aspects and Location of Towns,(iii)-Civic and other Amenities,(iv)-Medical Facilities,(v)-Educational, Recreational & Cultural Facilities,(vi)-Industry & Banking, and (vii)-Civic & other amenities in Slums respectively. CD Block wise data of Village Directory and Village PCA have been presented in DCHB of 2011 census as presented in earlier census. The data of DCHB 2011 Census have been presented in two parts, Part-A contains Village and Town Directory and Part-B contains Village and Town wise Primary Census Abstract. Both the Parts have been published in separate volumes in 2011 Census.

Brief History of the District

It is believed that the name of Nashik district has its origin from the story of Ramayan. Lord Rama with his wife Sita and brother Laxmana stayed during their exile period at Panchavati, Nashik. Laxmana severed the nose (Nasika, a Sanskrit word) of Ravana's sister Shurpnakha who insisted to marry Laxmana. Thus the name 'Nashik' was originated. The earliest literary mention of Nashik occurs in a Vattika of Katyayana (circa 250 B.C.) on Panini's Sutra (VI, I, 63) as explained by Patanjali. Katyayan's Vattika implies the name Nasikya, a city (Nagara) which was the same as modern Nashik. Later, the name occurs in several subsequent works such as the Brihatsambita of Varahamihira (6th century A.D.), Vayu, Varaha and other Puranas. Nashik was however more famous as a holy pilgrimage centre than as the headquarters of the territorial division.

Nashik went through rules of different dynasties. The period of Yadava supremacy ended with the invasions of Muslims from the north under Ala-ud-din Khilji and Malik Kafur. For about twenty years after Ala-ud-din Khilji's conquest (1294), most of the present day district of Nashik formed a part of the dominions of the territory of Sultan of Delhi (1317 A.D.) and then passed to the Bahamani King (1347-1490) of Gulbarga and lastly to NizamShahi King (1490-1630) of Ahmadnagar, subsequently, Nashik was included in the Mughal province of Aurangabad.

During Maratha regime Nashik district occupied a key position in Maharashtra. It was later liberated from Muslim Joke by Marathas and came under British rule in 1818. The present territory of Nashik district was formerly partly distributed in Khandesh and Ahmadnagar districts. In 1837-38 part of Ahmadnagar district consisting of Sinnar, Chandor, Dindori, Nashik including Igarpuri and Peint State were made into a sub-collectorate under Ahmadnagar. The sub-collectorate of Nashik was, however, abolished in 1856 and its talukas incorporated in Ahmadnagar district. In 1861, Nimarpeta under Sinnar and VaniPeta under Dindori were abolished and a new sub-division was formed with headquarters at Niphad. Headquarters of Karnaltaluka included in Trimbakpeta was transferred to Igatpuri town in the year 1861-62 and the name of the talukachanged from Karnai to Igatpuritaluka. In 1869, Nashik was made a fulfilled district, with eight sub- divisions of Ahmadnagar viz. Nashik, Sinnar, Igatpuri, Dindori, Chandor, Niphad, Yevla and Akola and three sub divisions namely Nandgaon, Malegaon and Baglan from Khandesh and Peint state. Shortly, afterwards Akola taluka was returned to Ahmadnagar. In 1875, Baglantaluka was divided into two talukas viz. Baglan or Satana and Kalwan. After the death of begam, Peint State became British territory and was made into sub division in 1878. There were no major changes in the district or taluka boundaries between 1901 to 1948.

Consequent upon the merger of Indian States a new Mahal known as Surganamahal consisting of the former Indian State of Surgana was created in 1949. In 1950, 11 villages were transferred to Aurangabad district. Two villages from Surat district were added to this district. Four villages were transferred to Dhule district. With the re-organisation of States in 1956, the

district was included in Mumbai State, since 1960 it formed a part of Maharashtra.

At the time of 1961 Census the district comprised of 11 talukas and 2 mahals, having 1652 inhabited villages and 15 towns. At the time of 1971 Census, the district had 13 tahsils comprising 1628 inhabited villages and 20 towns. The number of tahsils in the district remained unchanged in 1981 Census. However, three new towns were added viz. Satpur, Vadner and Eklahare and four towns Manmad (N.M.), Nandgaon (N.M.), PimpalgaonBasrant and Vani were declassified. At the time of 1991 Census, the number of tahsil remained 13 with 1814 inhabited villages. Two municipal councils viz. (i) Nashik Road Deolali and (ii) Satpur and one Census town viz. Vadner have been merged along with 19 villages of Nashik tahsil with the Nashik Municipal Corporation, Ghoti B.K. villages of 1981 census, has been declared as census town in 1991 census. At the time of 2001 census the district had 15 tahsils comprising 1929 villages and 18 towns. In 2011 census, the district has 15 tahsils, 25 towns and 1922 villages (including 3 uninhabited villages).

Administrative Set up

There were Major changes in the administrative set-up of Maharashtra after the 1991 Census, resulting in increase of five districts. The number of districts rose from 30 in 1991 Census to 35 in 2001 Census. Greater Bombay districts of 1991 Census divided in to two forming Mumbai and Mumbai suburban districts. Similarly new districts Nandurbar, Washim, Hingoli andGondiya districts were form bifurcating Dhule, Akola, Parbhani and Bhandara districts respectively. At the time of 2001 Census Konkan division included 6 districts, Nashik division had 5 districts, Pune division had 5 districts, and Aurangabad division had 8 districts, Amravati division had 5 districts and Nagpur division had 6 districts. Nashik district is included in Nashik division. Thus for 2011 census the State has 35 districts spread over 6 divisions in Maharashtra. Nashik district has 15 tahsils, 25 towns and 1922 villages spread over Surgana (190), Kalwan (152), Deola (50), Baglan (170), Malegaon (143), Nandgaon (100), Chandwad (111), Dindori (158), Peint (145), Trimbakeshwar (125), Nashik (73), Igatpuri (117), Sinnar (130), Niphad (134) and Yewla (124) tahsils. The following statement indicates the changes which occurred after 2001 census in the number of villages, towns in each tahsil and also the reasons for variation in brief.

Jurisdictional changes during 2001-2011

For administrative purpose the district is divided into four sub-divisions. 1) Nashik 2) Kalwan 3) Niphad and 4) Malegaon and 15 tahsils. Nashik sub-division includes Nashik, Igatpuri, Peint, Dindori and Trimbakeshwar tahsils, Niphad sub-division includes Niphad, Sinnar and Yevla tahsils, Malegaon sub-division includes Malegaon, Chandwad and Nandgaon tahsils Kalwan sub-division includes Kalwan, Baglan, Surgana and Deola tahsils. The District Collector alongwith the District Judge, Superintendent of Police, The Chief Executive Officer of Zilla Parishad and other Senior Officers of the State Government look after the development and regulatory functions in the district. At the tahsil level, Tahsildar, Block Development Officer, Judicial Magistrate, Deputy engineers and other officers look after their respective departments for development and regulatory functions.

District Highlights – 2011 Census

- In the district, Nashik tahsil is the most populated with 1,755,491 persons while Peinttahsil with 119,838 persons is the least populated among the fifteen tahsils.
- Nashik district has 82.3 percent literacy rate which is equal to state literacy rate.
- Surganatahsil leads with 190 inhabited villages while Deolatahsil has only 50 inhabited villages.
- Nashik is the most urbanized tahsil with 90.0 percent population being urban while Surgana is the least urbanized with only 3.6 percent population is urban areas.
- PimpalgaonBaswant Village in Niphad C.D. Block is the most populated (41,559 persons) and Kondharabad village in BaglanC.D. Block is the least populated (11persons).
- Mamdapur village in Yeola C.D. Block has the largest area (5,951.0 hectares) and Kondharabad village in Baglan C.D. Block has the smallest area (12.0 hectares) among all villages of the district.
- The district is famous for grapes gardens.
- Hindustan Aeronautics Industries and Government Printing Press are located in this district.
- The district is famous for holy places. Lakhs of people from other states visit the district every year. Trimbakeshwar, one of the twelve Jyotirlingas in India is located in this district.

Section - I

Primary Census Abstract (PCA)

Brief Note on Primary Census Abstract

Introduction:

The Indian Census has the reputation of being one of the best in the world. The first Census in India was conducted in the year 1872. This was conducted at different points of time in different parts of the country. In 1881 a Census was taken for the entire country simultaneously. Since then, Census has been conducted every ten years, without a break. Thus, the Census of India 2011 was the fifteenth in this unbroken series since 1872, the seventh after independence and the second census of the third millennium and twenty first century. The census has been uninterruptedly continued despite of several adversities like wars, epidemics, natural calamities, political unrest, etc.

The Census of India is conducted under the provisions of the Census Act 1948 and the Census Rules, 1990. In Censuses until 1931, a synchronous de-facto method was adopted wherein the Census was conducted throughout the country on a single night. This being a very costly affair and involved the deployment of very large force at one point of time was given up in 1941. Since then the same methodology has been followed in all the Censuses. It is a gigantic operation and considered to be the single largest, complex, peace time administrative exercise in the world.

The Census Operation in India is carried out in two distinct but inter connected phases - the House listing and Housing Census followed by the Population Enumeration. During the first phase of Census 2011 i.e., House listing and Housing Census, the buildings, census houses and households were identified and systematically listed in the House Listing and Housing Census Schedule during the period April to September, 2010 in different States/Union Territories. Apart from listing of houses, some useful data on the amenities available to the households was also collected for assessing condition of human settlements, housing deficits etc.

Censuses prior to Census 2001 had the system of collecting the information through Individual Slip which was a key schedule for every individual. The information collected through slip was then compiled for a household. Some information was also collected in addition to this for the household. During 2001 Census a comprehensive Household Schedule was adopted replacing the individual slip concept. In 2011 Census also similar household schedule was used for canvassing. The scope of demographic, socio-economic parameters has been widened in every census.

2. Population Enumeration - Census 2011:

The field work of the second phase i.e. Population Enumeration was carried out during February-March, 2011. One of the essential features of Population Enumeration in the second phase was that each person was enumerated and her/his individual particulars were collected at a well-defined point of time.

The Census moment and the reference date for the Census of India 2011 was 00:00 hours of 1st March, 2011. The enumeration was conducted from 9th February to 28th February, 2011 along with a revisional round from 1st March,

2011 to 5th March, 2011 synchronously all over the country except for few specific areas of the Jammu & Kashmir, Himachal Pradesh and Uttarakhand states that remain snowbound in February. In these locations the population enumeration was done from 11th September, 2010 to 30th September, 2010 along with a revisional round from 1st October, 2010 to 5th October, 2010. The reference date for the census in snow bound non-synchronous areas of these states was 00.00 hours of the first day of October, 2010. In addition to the coverage during House listing & Housing Census, the enumeration of the Houseless population was carried out on the night of 28th February, 2011, as has been the usual practice. For the purpose of Census, certain areas where the access of the civilian enumerators was not permissible due to security reasons termed as 'Special Charges' such as the Defence and strictly Military/Para-Military areas, including operational areas were also covered. Such areas were not covered during the House listing & Housing Census. In addition to the defence/para-military areas, Special Charges also included certain factory areas, certain colonies, sensitive areas, scientific establishments, etc. These also formed Special Charges as these were not accessible by the usual census enumerator.

3. Quality Assurance:

A Task Force for Quality Assurance (TFQA) functioned under the chairmanship of the RG & CCI. Experienced officers of the different divisions of the organization i.e. Heads and senior officers of the Census Division, Data Processing Division, Map Division, Demography Division and Social Studies Division comprised the TFQA. The Directors of Census Operations were co-opted as members whenever the TFQA discussed the data for their States/Union territories. The main objective of constituting the TFQA was to subject the data to stringent validation checks and ensure its quality before release as it was expedient to be satisfied itself about the quality of data before putting the same in public domain.

The Directors and their senior officers were involved at all levels with respect to the quality and the coverage of their states/Uts. The TFQA intensively scrutinized coverage and content parameters including edit and imputation logic. The most important aspect of the data quality was to ensure complete coverage of all geographical areas especially for the population enumeration phase where the data is disseminated right up to the village level in the rural areas and the ward level in the urban areas. Thus ensuring the complete coverage and correct geographical linkage of each enumeration block was one of the major planks of the quality control, especially for small area population statistics. The content was scrutinized mainly through the process of internal consistency, comparison with similar data in the past and also through validation with likewise data if available, from external sources. Quite often the local knowledge and perception was looked at to understand both the existing and the new emerging trends of population distribution and characteristics. A very comprehensive check and edit mechanism was put in place to objectively examine the preliminary Census 2011 Population Enumeration results and finally clear them for use. The population data was cleared only after the full possible satisfaction of the TFQA.

The entire work relating to the data validation and scrutiny was completed by all the States/Union territories under the overall supervision and monitoring of the Census Division of the Office of the Registrar General, India with active cooperation and support of the Social Studies Division, Data Processing Division, Data Dissemination Division and Map Division.

4. Primary Census Abstract:

The Primary Census Abstract which is important publication of 2011 Census gives basic information on Area, Total Number of Households, Total Population, Scheduled Castes, Scheduled Tribes Population, Population in the age group 0-6, Literates, Main Workers and Marginal Workers classified by the four broad industrial categories, namely, (i) Cultivators, (ii) Agricultural Labourers, (iii) Household Industry Workers, and (iv) Other Workers and also Non-Workers. The characteristics of the Total Population include Scheduled Castes, Scheduled Tribes, Institutional and Houseless Population and are presented by sex and rural-urban residence.

In 1981 census main workers were presented into four categories. As regards 1991 Census, the nine-fold industrial classification of main workers has been given in the Primary Census Abstract. One of the important features of the Primary Census Abstract of 1991 Census was the presentation of population of the age group 0-6 which is continued in 2001 and 2011 Census. All the children of age 6 years or less have been treated as illiterate even if the child is going to a school and may have picked up reading and writing. This will help the data users in better analysis and understanding of the literacy data as the literacy rate is calculated with 7 years and above population and it is referred as effective literacy rate. In 2001 and 2011 census four categories of main workers have been given in the Primary Census Abstract.

5. Level of Presentation of PCA data in District Census Handbooks:

The format of Primary Census Abstract (PCA) adopted in the DCHB of 2001 Census has been continued for 2011 Census as the data on four categories of works have been presented similar to 2001 census. The Primary Census Abstract data in different PCAs are presented at different levels. The level of presentation of Primary Census Abstracts in DCHB is as under:

1. District Primary Census Abstract -District/C.D. Block/Town.
2. Primary Census Abstract for Scheduled Castes- District/C.D. Block/Town.
3. Primary Census Abstract for Scheduled Tribes -District/C.D. Block/Town.
4. Village Primary Census Abstract -C.D. Block/Village wise.
5. Urban Primary Census Abstract- Town/Ward level.

-4-

The PCA Data for villages was presented C.D. Block wise for the first time in 1991 Census. This practice is continued in 2001 and 2011 Census. The term 'Total Population' includes the Scheduled Castes, the Scheduled Tribes, the Institutional and the Houseless populations. An appendix to District

Primary Census Abstract has also been furnished showing urban enumeration block-wise particulars on Total Population, the Scheduled Castes Population and the Scheduled Tribes Population for each town.

6. Area Figures:

The area figures supplied by local revenue authorities of the district in respect of tahsils, Police Stations and by the local bodies in respect of towns are given in square kilometers. The area figures of the villages supplied by the Tahsildars in acres have been converted and shown in hectares. The area figures of the C.D. Block are the total of the village areas coming under each C.D. Block. The area figures for the district are the same as adopted by the Surveyor General of India to maintain uniformity at the national level.
